

Creating Future Leaders with Arizona Tax Credits

Alumni Testimonials

Our Mission

We provide scholarships to underserved children to change lives, serve society, and transform culture.

Catholic Education Arizona partners with an independent, third party to provide an in-depth financial needs analysis of its applicants. For more than 20 years, Financial Aid Independent Review (FAIR) has worked with institutions throughout the nation to calculate tuition scholarships for families. Need is defined in a variety of ways, and not always based on income alone.

CEA and FAIR provide ample opportunity for a family to share circumstances not notable in the application, to help provide a more thorough understanding of the family's ability or inability to help support their tuition obligation.

CEA is the first STO to notify schools and families of their annual scholarship awards, providing peace of mind and the ability to acquire additional sources of funding if necessary.

Alumni Story

Meghan Pipitone (Center) Graduated from Our Lady of Perpetual Help Catholic School (Class of 2014), Notre Dame Preparatory (Class of 2018), and University of San Diego (Class of 2022).

Her older sister is a Xavier College Preparatory and Creighton University alumna (Right). Her younger sister is currently a freshman Notre Dame Preparatory (Left).

“Attending Catholic school taught me that there is so much more to an educational experience than the grades that appear on your transcript. I received a quality, rigorous education while learning the most important lessons to life such as: compassionate service, ethical conduct, and working towards a greater world.”

- Meghan Pipitone, Catholic School Alumna

Meghan received the opportunity to attend the University of San Diego on a merit scholarship. She has received her BS in Electrical Engineering with a minor in Physics. She has been named an Industry Scholar through the University of San Diego and have achieved the School of Engineering's First Honors Dean's list each semester thus far. Her post-graduate plans include working on sustainability within the engineering field and starting a career working with renewable energy.
